

# VIRTUAL STEAM INCURSIONS

Victorian curriculum aligned online workshops in coding, robotics and 3D design, tailored for years 1-6.

Robofun is a Melbourne based coding and robotics academy. We offer engaging and fun STEAM (science, technology, engineering, arts and mathematics) based lessons and extracurricular activities for primary school students.

- Facilitated by our experienced instructors (WWCC certifications)
- Conducted via Zoom or Webex
- Curriculum aligned learning outcomes for years 1-6
- Dynamic and fun learning experiences
- 60 minute live and interactive online lessons (including a recording of the lesson for your school to keep)
- Your choice of projects based on principles of coding, robotics and 3D design
- Post-class support to answer teacher's questions

## MAKE. CODE. PLAY.
